# How we work

## RESEARCH

We make a huge research about each model we want to product, each detail is important to realize a faithful item, even the smallest.

## 3D MODELING

Once we have all measures needed, we proceed to realize a 3d model, paying particular attention about correlation of each measure, detail and all car parts.

## PROTOTYPING

When the 3d model is ready and approved, a mock-up model is 3d printed. It will be checked to confirm the whole project and find possible changes to make.

## FINAL PRODUCT

When the final prototype is approved with all details confirmed, we start the production, and the last step is to bring your 1/18 dream car to you.

LAUDORACING - MODEL

# CLASSICS

**Fiat Uno Turbo i.e. 1987**  
**Red - LM088**

**Alfa Romeo 75 3.0 V6**
